

Paper Towel Roll Stocking Cap Ornament

This is a recycle Kid Craft. The little ones can really get into this craft, and make something pretty to hang on the tree.

Supplies are few:

4 ply yarn of any color or colors.

A ring cut from a paper towel core about $\frac{3}{4}$ to 1 inch wide. Also cut a 2X6 inch cardboard template to wind your yarn on.

You will need about 50 pieces of yarn. Wrap around the cardboard and cut one end to give you 12 inch pieces. The hat shown is red and white yarn alternately wrapped. Double the piece of yarn and slip the loop end through the ring, pull the two ends through the loop and tighten them up; then pull the two ends back up inside the ring and out the other

side. Work the yarn pieces close together to completely fill the ring. When it is full, gather all the ends and tie them tightly. Use a piece of yarn long enough to make a hanger after tying the bundle.
